THE DAILY SENTINEL.

TUESDAY MORNING, MAY 18

TO ADVERTISERS.

☞ Business Notices appearing in the Local Columns will be charged 25 cents per line for the first, and 15 cents for each subsequent insertion.

☞ Transient Advertisements must be paid for invariably in advance.

☞ The number of insertions must in all cases be specified on the copy when handed in, or no "till forbid" Advertisements will be taken.

☞ Yearly Advertisers will be held strictly to Advertisements pertaining to their business. All other Notices will be charged at the Regular Rates.

☞ Extra Display of Advertisements, and those with large cuts, will be charged by the square for each insertion.

☞ Ordinary Notices of Deaths and Marriages inserted for twenty-five cents. Obituary Notices will be charged by the square.

The News.

We have this morning interesting news from the seat of war. Intelligence has reached St. Louis in effect, that Gov. CUMMINGS, by invitation of Brigham Young, has entered Salt Lake City, and will undoubtedly assume the management of affairs there at once, and thus terminate the great Mormon war.

Intelligence of an exciting nature from Kansas, has reached us, via St. Louis. The particulars will be found under our telegraphic head.

Another sad railroad accident has occured by the breaking of a bridge. The Cincinnati night express on the Lafayette and Indiana R R. was crossing a bridge 18 miles from Lafayette when the structure gave way, precipitating the train into the water. Three persons were killed and several injured.

By the arrival of the North America, we have later news from Europe. The news is not of particular importance. Breadstuff and provision market unusually steady.

From Washington, we learn that the President will to-day communicate his reply to the Senate relative to the outrages committed upon the American flag by British vessels. Lord NAPIER's attention has been directed to the subject, and it is believed that orders have been issued to our home squadron, directing them to give the matter their attention. Proposals have been issued for any portion, or the whole of $4,000,000 treasury notes, in exchange for gold.

The annual inspection of the Fire Department took place yesterday. The Department turned out strong and made an excellent display, although the weather was unpleasant, and the streets muddy.

Our State Legislature adjourned *sine die* yesterday, after a long and laborious session.

The New York Bank statement for the week shows a large increase in loans, and a decrease in specie—both favorable symptoms.

Eastern markets yesterday dull, and no change to note in our home market.

Adjournment of the Legislature.

Both Houses of the Legislature adjourned *sine die*, yesterday morning, and a large number of members came in by the afternoon train from Madison. We learn from some of them that there was a general slaughter of appropriation bills in the last hours of the session, and that no provision was made for continuing the Capitol Extension.

We shall, at an early day, take occasion to review in detail the proceedings of the late eventful session.

Another Railroad Bridge Broken—Three Lives Lost.

An accident occurred on Saturday morning about one o'clock, on the Lafayette and Indianapolis Railroad. The Cincinnati night express train north, was crossing a bridge 18 miles from Lafayette, when the bridge gave way, throwing the whole train into the water. The fireman, engineer and conductor were killed.

The accident happened at Potatoe creek, 18 miles south of Lafayette. The bridge was 100 feet long, the train running at the rate of 25 miles an hour; and the bridge giving way, the entire train went through to the bed of the creek.

From Mr. Edward Kilbourne, of Keokuk, Iowa, who was in the train at the time of the accident, we learn additional particulars. The stream was much swollen by the recent rain, and undermined one of the bents of the bridge. The night was pitchy dark, except when lit up by the flashes of lightning.

The engine smashed through, dragging a fter it the tender, baggage, and two passenger cars. The engineer, Jacob Berenger, and fireman, Mallory, were instantly killed; both were horribly mangled. A beam of the bridge entered the baggage car, passing through its entire length, and entered the first passenger car, through the platform or end window, about ten feet. The conductor, J. W. Irving, was sitting on the front seat of the car, and was struck by this timber on the left temple; his skull was crushed in; he lived in an unconscious state for an hour, and then he died.

The beam held the car from sinking more than a foot into the water. There were about thirty passengers in it, and strange to relate, none of them were seriously wounded, although a few were contused or jarred. The hind car did not fall in whole length into the creek, but the rear end remained on the abutment, elevated at an angle of forty or fifty degrees. The passengers were thrown forward into a heap, but none received material injury. The whole bridge broke down.

The engine, tender and baggage car were literally crushed into fragments. The baggage of the passengers was nearly all lost or destroyed. The engineer was running his train over the bridge at a high rate of speed, and probably had got half over when the locomotive went through it. It seems that the farmers in the neighborhood knew that the bridge was in a dangerous condition, but gave no notice of it. A boy offered to build a fire near it to warn the night train, but his father would not permit him. The crash was heard for more than a mile, and the *expectant* people came rushing to view the scene in a very few moments. The Superintendent of the road was aboard at the time. He had crossed the bridge at 4 o'clock of the preceding evening, and appeared not to have been aware of its dangerous condition. We have not space this morning for more particulars.—*Chicago Tribune.*

Stabbing Affray.

A serious stabbing affray took place in this vicinity on Friday evening.

It seems that a man by the name of Nether had some dispute with Andrew Seitz, a tailor by trade, and the tailor ejected him from his shop. Upon this Nether went to a store and purchased an ordinary jack knife and returned to the shop, when a second dispute arose, and when the tailor attempted a second time to eject Nether the latter stabbed him with the knife in the abdomen. Nether was taken into custody immediately, and on Saturday was arraigned before Justice Woodworth, Wm. P. Bartlett, Esq., District Attorney, appearing for the State, and A. Meggett, Esq., for the prisoner. The prisoner waived an examination, and was ordered to give bail in the sum of $1,500, which not being given he was committed to jail. Since the examination the condition of Seitz has grown more critical, and it is now doubtful whether he will recover, yet the chances are thought to be in his favor.—*Eau Claire* [Wis.] *Telegraph.*

Attempted Bank Robbery at Racine.—A bold attempt was made by some unhung rascal to rob the Commercial Bank in this City, on Thursday night.

The burglars effected an entrance into the building through the back door, by boring a hole large enough to insert a hand and then picked the lock on the inside. They then went to work at the vault door, cutting a hole in it at least three and a half or four inches in diameter, with a machine of some kind evidently made for the purpose, through which they succeeded in taking off the lock. The safe, one of Yale's burglar proof, manufactured at Philadelphia, was next operated upon, but resisted all their efforts. They found a portion of one of the safe keys, which are left in the bank, with which they endeavored to open the lock, and tried until they broke it, leaving a large portion in the key hole. —*Racine News.*

An American Brig Fired Into.

BOSTON, May 17.

Capt. Loring, of the brig Kingold, arrived last night. He reports on the 30th ult., after leaving Sierra Morna, was fired into by a British cruiser. One of the balls was buried in the mainmast, close to the cabin's head. They were afterwards boarded by a fully armed boat's crew, who insisted on examining the the brig's papers.

☞ LET EVERY BUSINESS MAN REMEMBER, that the DAILY SENTINEL has MORE THAN DOUBLE the Circulation of any other Paper in Milwaukee, and is, therefore, the CHEAPEST AND BEST ADVERTISING MEDIUM in the City.

REVIEW OF THE FIRE DEPARTMENT.—The Semi-Annual Review of our Milwaukee Fire Department came off yesterday afternoon. As usual the weather was rather unfavorable, muddy streets and cloudy skies giving an unpleasant look to out-door business. Nevertheless, our gallant Firemen turned out in greater force and made a finer appearance, than on any previous occasion of the kind. The several Companies assembled on Main street, soon after 1 o'clock, and, under command of Chief Engineer SCHULTZ, and accompanied by several fine bands, they marched through a number of the principal streets to the place of trial. There were in the procession, 2 Hook and Ladder Companies, 2 Hose Companies, and 7 Engine Companies—11 Companies in all, the apparatus in splendid order, the men in neat and appropriate uniforms, and mustering full six hundred strong.

Arrived at the foot of Milwaukee street, each engine took suction, and at a given signal, all commenced playing through 200 feet of hose and pipe at a lofty target, reared upon ladders and some 130 feet above the ground. Several of the streams went far above the target, though the trial was unsatisfactory on account of the wind, which cut off the streams.

The next test was on quantity, each Engine playing in turn, from suction, through 400 feet of hose and an open butt, into a large tank—time 3 minutes. The depth to which each filled the tank was as follows:

No. 7,	3 feet 2½ inches.
No. 6,	4 feet 2½ inches.
No. 5,	4 feet 3½ inches.
No. 4,	4 feet 1½ inches.
No 3,	3 feet 9 inches.
No. 1,	4 feet 3½ inches.

No. 2 did not compete in this trial; their engine being old and out of order. It is soon to be replaced with a new one. Of the other machines it is but fair to say, that Nos. 1, 5 and 6 are first-class, and Nos. 3, 4, and 7, second-class machines. The contest between several of them was very close, and both victors and vanquished appeared satisfied.

After the trial, the Department formed in procession again and marched up to Market Square, where they were dismissed; parting, as usual, with three rousing cheers for the Chief Engineer and Assistants, and the usual interchange of courtesies between the different Companies.—Everything passed off pleasantly and all separated in high good humor.

In the evening, Firemen's Balls were given by Excelsior Hook and Ladder Co. No. 1, at Young's Hall, and by Ocean Engine Co. No. 5, at the Republican House, which were largely attended and duly enjoyed. The Review was in all respects creditable to our Fire Department, and fully demonstrated its strength, harmony and efficiency.

THE WALKER HOUSE.—There is no city in the Union, of the same size, which can boast of more liberal hotel accommodations, than our own at the present time. With the travelling public, the Walker House has ever been a favorite hotel, and it still occupies this position. Indeed its popularity has greatly increased since it came under the management of the present efficient and gentlemanly proprietors, Messrs. Mashrouck & Pearce. There are a few things about a hotel, necessary to secure its popularity. Among the first of these are gentlemanly and courteous landlords, and obliging clerks and waiters. In these respects the Walker House is surpassed by no hotel in the State. Its tables, too, are furnished with the best fare which the markets can afford, served up in the best style of the culinary art. The sleeping and other departments are clean, commodious, and convenient; and all the other accommodations are on a par with these. In short every thing about the house is such that the most fastidious would be unable to find fault, and nothing is there lacking about the Walker House, that would not warrant us in recommending it as an excellent hotel. It will be seen, at, so, by an advertisement elsewhere, that the fare at this hotel has been reduced to the very low figure of $1,50 per day for board.

FIRE.—About two o'clock on Sunday morning, quite an alarm of fire was sounded, and a large number of our citizens were aroused from their slumbers thereby, most of whom, however, failed to find out the cause of the noise, which was the burning of a small frame house on Marshall street, occupied by a poor widow woman named Just. The fire had gained great headway before the alarm was given, and the house was entirely consumed in a few minutes. By the assistance of people who lived in the immediate vicinity, most of the poor woman's furniture was saved. The fire, it is said, was beyond doubt the work of an incendiary, as it first made its appearance on the outside, and it is thought was done by placing shavings or some combustible matter, between the side-boards of the house and the inner part of the wall. We can scarcely imagine a being so wretchedly depraved, as to be capable of committing the outrage of burning a poor widow's house over her head.

In St. Paul's church, on Sunday morning, a collection was taken up for her relief.

MISS TERESA ESMONDE, whose Lecture on the Poets and Poetry of Ireland, in reply to Dr. Mackay's assertion that Ireland had yet to produce an Irish Poet, has been received in New York with such enthusiasm, has accepted an invitation to visit Chicago, on the 26st inst. Her friends in Milwaukee, anxious to avail themselves of her close proximity, have resolved to extend an invitation to visit Milwaukee, and will hold a meeting for that purpose this evening at the Montgomery Guard armory, corner East Water and Huron street, at 8 o'clock; we trust there will be a full attendance, as Miss Esmonde is pre-eminently entitled to all the courtesies that can be extended to her.

RETURNED.—Ex-Alderman TAYLOR, of the Fourth Ward, who left for California last fall, has returned to this city, as he promised to do in his letter to the *Sentinel* a month ago.

Common Council Proceedings.

PRESIDENT PHELPS PRESIDING.

A regular meeting of the Board of Aldermen was held last night. All the members were present.

Accounts and petitions presented and referred to the appropriate committees.

Resolutions &c. adopted by the Board of Councillors, were brought up for concurrence.

The resolution instructing the Chief of Police to cause to be removed out of the city limits the toll gates on the Wauwatosa and Lisbon Plank Roads, was laid upon the table temporarily.

The resolution ordering a sewer on Mineral street was also laid over until the next meeting.

A motion to lay the resolution ordering the construction of a breakwater at the foot of Huron Street, was offered by Alderman Carroll, and defeated by 2 to 6.

A somewhat tedious debate took place upon the allowance of a bill for gravel, at 75 cents per load. The Councillors at first adopted a resolution allowing the account at 75 cents, which the Board of Aldermen amended by changing the rate to 37½ cents per load. The Councillors refused to concur in this, and, and re-affirmed their first resolution, which came before the Board of Aldermen last night, and was non-concurred in by a vote of 4 to 5, and amended by making the amount 50 cents per load, instead of 75 cents.

A Petition from Engine Co. No. 1, asking the Council to take some measure to procure a suitable Engine House for them, was referred the joint Committee on Fire Department.

A Petition to repeal the ordinance establishing a Wood and Hay Market on Market Square, was referred to the local Committee of the 7th Ward.

A Resolution declaring certain lots in 3d Ward a public nuisance, and requiring the same to be filled within ten days, was adopted.

A Resolution instructing the Street Commissioners to cause certain improvements in the 3d Ward,—planking sidewalks, bricking and paving gutters, and also the construction of a sewer in block 44 and 45 in same ward, was adopted.

Ald. Carroll offered a resolution instructing the Police Justice to discharge James Geary now in jail for violating a city ordinance, on condition of his leaving the city, was adopted.

The committee on Fire Department, reported in favor of allowing certain accounts.

An ordinance to regulate the building of barns within the City limits was offered. It provides that no person shall hereafter erect a barn or stable within thirty feet of the front line of any lot within the City limits, the violation of which is punishable by a fine of $100.

Alderman Plankinton opposed the ordinande, and moved that it be laid upon the table.

Alderman Daggett supported the ordinance, and hoped that the motion would not prevail.

Ald. Plankinton withdrew his motion.

The ordinance received its second reading and was laid over according to the rules.

Ald. Daggett called the attention of the chair to the 26th rule, of the rules and regulations of the Council, in relation to remitting of fines, and stated his belief, that the resolution just adopted to discharge Geary from jail, was in violation of the same. The resolution was reconsidered and referred to the Police Justice.

A resolution instructing the chief Engineer to deliver to Liberty Hose Company the old cart of Hose Co. No. 1, was adopted.

After the passage of an ordinance changing the names of certain streets in the 5th ward, the Board adjourned.

A BRUTAL ASSAULT.—On Sunday afternoon an affray took place on Market, near East Water street, of which the following is the substance of the particulars, as related to us by an observer:

It seems a young man, whose name we did not learn, was endeavoring to drive a balkey horse, which he had just hired from a livery stable on Market street. As he appeared quite unable to manage the horse, a man who was passing offered his assistance, and taking hold of the horse by the head, he gave the animal a kick in the ribs. The owner of the livery stable seeing this part of the proceedings, rushed at the man who had kicked his horse, and with three others from the stable, attacked and beat him in a savage manner. The brutes pulled most of the man's hair out by the roots, leaving his head bleeding, nearly bald, and otherwise maltreating him in a shocking manner. Policeman Just, who resides in the vicinity, seeing the disturbance, came up and attempted to arrest the man who appeared to be the leader.—No sooner, however, did he lay hand upon him, than the others pitched upon the policeman, and dragging him into a saloon close by, they locked the door and then pounded him to their heart's content. They were all afterwards arrested, however, and will be examined in the Police Court this morning. We have not mentioned the names of any of the parties, as the affair has not yet undergone legal investigation.

HAT MANUFACTURING.—This business is now carried on in our city to some extent by Mr. J. A. Benedict, at No. 152 East Water Street. Mr. Benedict gets up a very superior silk hat, which he claims is not surpassed by any manufactured in the country. Gentlemen who are in the habit of having their hats made to order, will do well, and probably save money by leaving their orders with Mr. Benedict, instead of sending abroad.

POLICE COURT YESTERDAY.—Charles McKenzie, drunk and disorderly, (an old offender,) sent to the County Jail for 20 days, in default of $20 fine. John O'Henan, intoxicated and disorderly, case adjourned to 18th inst. John Finnegan and James Delahaut, intoxicated, fined $1 and costs each. Edward Sullivan, charged with assault and battery, and discharged for want of prosecution.

A CARD.—At a meeting of Engine Co. No. 6, held at their House, last evening, on returning from Inspection, the following resolution was unanimously adopted:

Resolved, That our hearty thanks be and they are hereby tendered to JOHN S. FILLMORE, Esq., for acting as our Judge this day, and for his many favors to our Company.

A. WILLIAMS, Foreman.
DANIEL O'LEARY, Secretary.

HEAVY STORM.—A very heavy rain-storm, with frequent thunder and lightning, passed over our city Sunday night. The rain fell nearly all night, tho' the violence of the storm only lasted for an hour or two.

QUICK!—Goods were received yesterday by the propeller *Potomac*, of the Northern Transportation Co's line, through from New York in *fourteen* days. MR. GEORGE D. DOUSMAN is the agent of this line.

FOR COLLINGWOOD.—The fine steamer *Evergreen City* will leave here to-morrow morning, for Collingwood. For passage &c. apply at the steamboat agency of Griffin & Burns, foot of East Water Street.

☞ Bear in mind that no more copies of the new City Directory will be published than those subscribed for.

MILWAUKEE—ITS SCHOOLS &c.—In the last number of the Kilbourn City *Mirror*,—one of our best country exchanges—we find the following very respectable notice of our city and its schools:

We visited Milwaukee last week, and were pleased to see the numerous signs of substantial growth and prosperity. The appearances in the streets indicated that business was as lively as at any time last season, but on entering the stores and shops we found there was not much trading. Business is, however, on the increase, probably as fast as healthful growth demands.—But whoever is well posted in regard to the advantages of Milwaukee, and visits it occasionally to observe its rapid growth, must be convinced that it is the great commercial centre, for not only Wisconsin, but the great North West.—And every citizen of our State, unless he be exercised by a ridiculous spirit of rival jealousy, will feel a just pride in its advancement among the commercial cities of the world.

Among the institutions of Milwaukee, we believe there are none more creditable to the city and State than the Public Schools. In company with Gov. King, and several other friends, we visited the Seventh Ward School—which is perhaps, a good sample of the whole. The lots on which the building stands cost $10,000, and the building about $30,000. There are three departments—Primary, Intermediate and Grammar, and High School. The High School department is for the whole city, and the Intermediate and Grammar are separate departments as in the other Wards. There are 203 seats in the Primary department; 110 in the Intermediate or Grammar, and 108 in the High School—and every seat was filled. Each scholar had his separate seat and desk. Mr. J. G. McKindley is at the head of this School. We have visited schools in several eastern cities, but have never seen so perfect a school, in all its departments. That school alone is worth more to Milwaukee than the Capital of the State would be; for while one is refining, elevating and ennobling in its tendency, the other would tend to degrade and corrupt.

We would gladly say more of Milwaukee matters, but have no room.

REVERE HOTEL, CHICAGO.—This well located and sumptuously furnished Hotel, was re-opened on the 12th inst., under the management of Messrs. Baldwin & Willard, formerly of the Matteson House, whose popularity as "*prime hosts*," is too well established to need comment. The "Revere" is located near the business centre of the city, and, to the business man or sojourner, we think a more desirable location or more assiduous landlords, the city of uneven walks and muddy streets, does not contain. Gentlemen, give them a call; we did, and found all the creature comforts, the most fastidious could desire.

STOCK OF GOODS, RENTS, AND BANK STOCK.—J. S. FILLMORE has a stock of Dry Goods amounting to $12,000 to exchange for Real Estate, also a new cottage in a neat place in 4th Ward, to rent at $200; also $1000 Marine Bank Stock for sale.

RYE—80a85c on track.

BARLEY—Nominal at 35a85c.

FREIGHTS—44½c for wheat to Buffalo; to Oswego 8c. —*Chicago Journal, last evening.*

THE WOOL TRADE.—The time will soon arrive when this great and valuable staple of the North-West will make its appearances in our market, and the selling price must be established for the new clip.

Last year the new clip commenced coming in about the 10th of June. Fine Saxony fleeces ranging as follows: Full blood, 48 cents; ¾ blood, 40 cents; ½ blood, 32 cents; ¼ blood, 30 cents; native 26 to 27 cents for washed fleeces; making the average cost of the Illinois and Wisconsin wools 42 cents.

So much of this fairly purchased over two hundred thousand pounds of fleece wool at an average cost of 42½ cents, which was shipped to Boston, Providence, and New York, and has been sold at twelve cents per pound less than cost to us, and will be safe to say there has been, or will be, a loss of from ten to twelve cents on the whole last year's clip to the purchaser.

The losses on the last year's purchase, the general stagnants of trade at home and abroad, and especially in the manufacturing districts, the dullness and inactivity in the woolen goods market, the stoppage of many of the largest mills in the United States, the large amount of capital sunk in the manufacturing business by capitalists, the few years past, the large amount of old wool on the market offered at ruinous sacrifices at Boston, Providence, New York and Philadelphia, and the fact the new clip (which from all we can learn will be unusually large) will soon be coming in, will conspire to depress the wool market, and prices must and will rule low for the next months to come. The receipts at, and shipments from, this point last year were 1,816,116.—*Chicago Tribune.*

TUESDAY MORNING, MAY 18.

The Alternative for Kansas.

The Richmond *South*, a leading organ of the Lecompton Democracy, in speaking of the English swindle, very truly says:

"If the Conference Bill pass, Kansas may come into the Union as a Slave State, OR SHE CANNOT COME IN AT ALL. That is the issue."

Precisely. This is the agreeable alternative offered to Kansas, by the Buchanan Administration and the "National Democracy." If she chooses to come in as a SLAVE STATE she may come in right off, and be handsomely paid for selling herself to the Slave Power. But if she insists upon being FREE, not only is she denied admission into the Union *now*, but she is to be kept out just as long as the Pro-Slavery Democracy, have the power to exclude her.

This is the fair and equal settlement of the Kansas question which Mr. BUCHANAN has accomplished. This is that submission of the Lecompton Constitution to the People of Kansas which the Democracy North claim to have secured. This is the handiwork of the party which boasts that it is national, not sectional, and that it holds the scales between North and South with steady and impartial hand. Compare their acts with their professions; judge them by their fruits, and where are they? When was ever a more thoroughly sectional measure devised than this English Swindle? When was Popular Sovereignty so wantonly outraged as in this mock submission of Lecompton to the people of Kansas? When were justice and equity so grossly violated as in this sham settlement of the Kansas controversy? Assuredly the parties to this treasonable conspiracy against the rights and liberties of the People of Kansas, and the peace and honor of the Republic, shall have their reward.

The News and the Crittenden Amendment.

The *News* of Sunday has a lengthy article upon the Kansas question, an abortive attempt to polish the last outrage of the administration party, the passage of the English bill. The *News* shirks the main question, and pretends astonishment at the course of those Republicans in Congress, who voted for the Crittenden amendment. Hear what it says:

The course of the republican leaders in Congress on the Crittenden amendment, by which they pledged themselves to accept of the Lecompton constitution, *eternal slavery and all*, if the people there should say so—this course, the honest free soil element in the republican party demands an explanation of. Do they get one? We have not seen it.

"The course of the Republican leaders in Congress on the Crittenden amendment," needs no explanation, and the *News* but feigns that with which it charges us in regard to the English bill—stupidity.

No members of the Republican party require any explanation of this course. They fully understand it, and they are aware of the sentiments, and the object which actuated those honest members of Congress in voting as they did. It was to give the people of Kansas a fair chance to bruise the head of the monster, Lecompton.—The people of Kansas were bolied and wronged by the administration and its pro slavery backers. It was asserted that they had adopted Lecompton that it was the constitution of their choice. The Republicans denied this, as did every honest Democrat in the country, the people of Kansas denied it, and demanded an opportunity to refute their calumniators at the ballot box, by voting down the villainy. The Crittendon of Montgomery amendment would have accured this object.

It provided for the fair and square submission of Lecompton to the vote of the people, without any quibble, bribe or, dodge. The Republican leaders well knew that to submit Lecompton thus, would be the death of the monster, and the Administration men were well aware of the same fact, hence their opposition to this measure.

But this is a pregnant theme. The *News* claims that the Republicans have been guilty of an inconsistency in supporting the Crittendon amendment, and asks for an explanation. It asserts that this was a repudiation of the oft avowed opposition of the Republicans to the doctrine of squatter sovereignty. Not at all. No principles have been sacrificed, no pledges broken, on the part of the Republicans, whereas the contrary is the case with those Democrats who opposed this measure. It was the first honest trial of the much boasted doctrine of popular sovereignty, and the Democrats disregarded their pet principle in the outstart, because they discovered that a consistent course on that subject would not administer to the ends of the slave power.

If sustaining this measure were upholding the doctrine of popular sovereignty, on the part of the Republicans, as the *News* claims, was not opposition to it, a repudiation of the same by the Democrats? This is a subject for the *News* to take into consideration before it accuses Republicans of inconsistency. Everybody must have noticed how beautifully this boasted principle of popular sovereignty, has operated in its first trial! but this is only one of its many variations.

Progress of the Detroit and Milwaukee Railroad.

The Detroit *Tribune* of Friday last, contains the following item:

D. & M. RAILWAY.—Arrangements go into effect next week by which the cars on this road will run to the end of the track, six miles this side of Grand Rapids, where stages will connect directly with the Valley City.

There is every reason to believe that the road will be finished and ready for business early in the fall. Meantime, what is doing about the Steamers which are to connect this road with our Milwaukee system of Rail Roads? Who can give the public some information on this subject?

THE HERALD OF FREEDOM AND THE ENGLISH SWINDLE.—The *Herald of Freedom*, which was the organ of Gen. Walker, and is supposed by some to lean a little towards the Administration, thus speaks of the English swindle:

"It is needless to say that if that proposition is passed, the Lecompton Constitution will be defeated by the people, and then we are remanded back into our territorial condition. If the people have any chance to repudiate the fraud, they will do so. They will never vote to accept a pro-slavery government to be organized under the Lecompton Constitution—they will sooner hang every man that attempts it."

The *Herald of Freedom* is the chief Kansas authority of the *News*. We wonder that it does not quote from its columns now, to show how entirely satisfied the People of Kansas are with the English Swindle.

RESTING ON THEIR AXES.—The Washington correspondent of the Philadelphia *Press* writes:

There is just now considerable "calculating" as to future events. The folly of Lecomptonism never appeared so transparent as now. The executioners rest on their axes, and look to 1860 with some trepidation.

Well may they tremble in anticipation of 1860—the year in which they must account to the People for the Lecompton swindle and the English fraud.

THE ISSUE IN BRIEF.—The Louisville *Journal* well says that the difference in the two parties, upon Kansas matters is, that one demands the submission of the Lecompton Constitution to the people, and the other demands the submission of the people to the Lecompton Constitution.

REMOVAL OF THE CAPITAL.—The following is a copy of the Report, submitted by Mr. BENG, from the majority of the Committee on State affairs, in favor of the temporary removal of the Capitol to Milwaukee.

Your committee, to whom were referred the two propositions from citizens of Milwaukee, and from citizens of Madison, tendering temporary accommodations for the legislature, the supreme court and the various departments of State government, *free* of cost, during such time as might be required to enlarge or re-build the State Capitol, would respectfully report, that they have given the two propositions their earnest and attentive consideration, and are in favor of adopting that submitted by the citizens of Milwaukee, for the reasons, to wit:

1st. That the Legislature and State officers could be better accommodated at Milwaukee than at Madison.

2d. That the business of Legislation could be more cheaply and conveniently transacted at Milwaukee than at Madison.

3d. That Milwaukee is more easily reached from all parts of the State than Madison.

4th. That, therefore, a larger portion of the members of the legislature and the greater part of the people would be better accommodated by the temporary location of the Capit l at Milwaukee than at Madison.

5th. That the proposed removal of the State offices to Milwaukee, would be effected without any cost to the State, the citizens of Milwaukee guaranteeing to pay all expenses of such removal.

Your committee assume that the legislature do not contemplate proceeding with the present plan for the Capitol extension, and for that reason they will not unnecessarily occupy time with facts or arguments to prove that the plan is a faulty one, and cannot be carried out without heavy expense to the State.

The present condition of the State Treasury and the indisposition of the people to shoulder increased burdens of taxation, forbid the idea of expending any large amount, or incurring any considerable debt for this object, for a year or more, to come. The existing accommodations in capitol building for the two houses of the legislature and the different State officers, are entirely inadequate to the requirements of the public service. It is obvious, therefore, that other and ampler accommodations, must be provided. These are now offered to the State free of all cost—the cost of removal included, by the citizens of Milwaukee.

Your committee are satisfied that the public interest would be promoted, and the convenience of the legislature and the people thereby secured, by the acceptance of this offer. They are not aware of a single objection that can be fairly urged against the measure. They might enumerate many reasons in addition to those above stated, in its support. But the late period of the session, the near approach of its close, the pressure of other important business, and the necessity of a speedy action and decision of the question, alike admonish them to be brief.

Whereupon, a majority of your committee have instructed me to report a bill, no 756 A, and recommend the passage of the same.

On behalf of the majority of the committee on State affairs,

F. R. BERG.

"It is instructive to remark" that Mr. McDONELL, of Madison, who made the minority report, instead of urging the adoption of the Madison proposition—which was similar to that from Milwaukee, recommended the indefinite postponement of *both*. This was decidedly characteristic. As soon as Milwaukee tendered to the State all necessary accommodations, free of charge, during the repairing, or rebuilding of the Capitol, Madison came forward with a like offer. And yet, as soon as it became probable that the Legislature, owing to the late hour of the Session, would decline, for the present at least, the offer of Milwaukee, Madison, by her representative, withdrew hers, intending that the State, if it needed other accommodations there, should pay well for them.

COLLISION CASE DECIDED.—At the recent term of the U. S. District Court at Cleveland, the long contending case between the schooner J. J. Warner and brig Andes, was decided, as we learn from the Herald. It was a suit for damages occasioned by a collision in Lake Michigan, just below Waugoshance Light, May 21, 1857, by which the Andes was sunk.

The Andes was sailing before the wind, and the Warner was on her larboard tack, close hauled. It was claimed on the part of the libellant that the Warner kept away, when by the rules of navigation she should have held her course. On the part of the respondent this was denied, and claimed that the collision was brought about by the Andes changing her course and intersecting the course of the Warner, when she should have passed under her stern.

There was much conflicting testimony, and the case was elaborately argued. Judge Wilson rendered a decree, holding both vessels in fault, and directing a division of the damages, with a reference to the Clerk to ascertain the amount of the decree.

VIVE LA MODE.—A southern dealer advertises watch spring extension skirts, with six, eight and eleven springs; steel spring expansion skirts; Damascus watch spring skirts; lace imperial steel spring skirts; pompadour steel spring skirts; coronation skeleton steel spring skirts; coronation lattice steel spring skirts; misses' steel spring extention skirts, misses' skeleton and lattice skirts; child's steel spring extension skirts; child's skeleton and lattice whalebone and reed skirts. Fourteen different kinds of skirts! Out of such an assortment, the lady who cannot be pleased, must be opposed to any particular kind of skirt, and to all sorts of skirts generally. The list embraces skirts enough, if attached one to another, to reach the very out *skirts* of creation.

AN OLD VETERAN.—The New Jersey papers say an Old Soldier, 113 years of age, who served through the Revolutionary War and fought under Napoleon at Salamanca and Badajos, passed through Rahway the other day, on foot, having set out to walk to Boston. Excepting defective eyesight, he is in vigorous health, and is capable of enduring fatigue better than his son—"a boy" of eighty-four!

SUDDEN DEATH.—Hon. Asa Child, formerly Lieutenant Governor of Massachusetts, died very suddenly at Norwich, (Conn.) on Wednesday last. He had entered the cars to go to New Haven, but not feeling well, returned to the Station House, where, in a few moments, he expired.

THE SICK OF THE SUSQUEHANNAH.—On Wednesday last the British steamship *Saladin* arrived at New York from Kingston, to land 61 of the officers and crew of the U. S. steamship *Susquehannah*, who were sent ashore from that vessel, at Kingston, while sick with the yellow fever.

On the 17th of April the men were all discharged from the hospital, cured; and by the 20th all the officers were discharged. The following is the list of those who died at Kingston:

J. J. Lyne, purser's clerk; Edward Bolles, William Galeun, cooper; James Flynn, boy; O. Balestieri, band master; Jacob Booth, mariue; Robert Hodge and Matthew Henry, firemen; Peter Simpson, James Buckley, Austin Newill, James Silman, Alexander Lamb, Thos. C. Howe, D. McCarty, seamen; J. W. Wapoo, masters's mate; J. W. J. Jones, seamen; Patrick Burke, C. H. Antonia Larcotta, boy; Francis Gonzalez, seaman; Francis Carr, do; Freeman Luce, quarter master.

The following are the names of the officers of the Susquehanna who arrived in the Saladin:

Lieut. J. C. Howell; Alexander Henderson, 2d assistant engineer; Glindy King, 3d do.; John Grier, do. do.; M. Cushman, do. do.

FIRE AT MANCHESTER.—Frank Hyde, of the Marquette *Express*, sends us the following account of a fire at Manchester:

MARQUETTE, May 10, 1858.

ED. COURANT:—The store and stock of goods belonging to Hoyt & Darby, in the village of Manchester, in this county, was burned on Saturday night last. Building and contents valued at $6,000—insured for $4,000. The Post Office and contents were also burned. From indications about the ruins, it is believed that the store was first broken into and robbed, then set on fire.—*Berlin Courant.*

GRAND TRUNK RAILWAY, CANADA.—The following is a statement of traffic receipts for the week ending 1st May:

A MODERN BORGIA.

Wholesale Murder—Confession and Death of the Murderess.

GOSHEN, Ulster Co., N. Y., May 8.

I send you a detailed statement of a strange tragedy which has taken place near us, and which I perceive you have noticed briefly in your paper to day.

I know and know well all the parties I have mentioned. The facts in the case, not stated upon hearsay, I have learned from the District Attorney. The confession was made to Mr. Wood, pastor of the church to which Mrs. Wood belonged, and by the District Attorney told me, with a request that I should write them out for the press.

Mrs. Phebe Westlake, formerly of Ulster county, whose maiden name was Irwin, aged about forty-five years, died in Chester, Orange county, New York, on the 7th inst, no doubt from the effects of poison taken for the purpose of self-destruction.

Phebe had lived in Chester ten or twelve years. She was industrious, and knew how to do all manner of women's work, and was able and willing to do it well. Withal she was professedly pious. She gained friends in the best families in Chester, and when any of them needed help, they thought it a loss if they could not get Phebe.

About twenty years ago, we hear, her husband died suddenly. A paper of arsenic was found in his pocket, and upon a post mortem examination, arsenic was found in his stomach. It was supposed he had committed suicide, and no further action of inquiry was had.

Four or five years ago Mr. Pelser, who kept a hotel in Chester, died of erysipelas. He was a widower, and had but one daughter at home, a noble young woman, who before that time had been affianced to Mr. Hiram Colwell, a wealthy and respectable drover, well known in Orange County. She and her father's assistant, Mr. Heard, thought it best to secure Phebe as cook in the hotel, and they did so. Shortly after Phebe came there, Miss Pelser was taken sick with some strange disease, that her physicians could not understand. Her only sister, and her husband, Mr. Clark, were sent for, and came from the South, and took the management of Mr. Pelser's business and property at Chester. From that time Phebe was left mainly to nurse and care for the sick and dying Miss Pelser. She lingered and died under circumstances to induce strange suspicions, but no one suspected her faithful nurse, Phebe. About the time of her death Mr. Colwell received an affectionate letter, while he was at the West buying cattle, purporting to come from Miss Pelser, but at a time when it was known she could not write, requesting him, among other things, to remember Phebe for her kindness to Miss Pelser.

Last fall Phebe was employed as a domestic in the house of John B. Tuthill, a respectable merchant of Chester, in view of the prospective confinement of his wife, who was the only daughter of the late Francis Tuthill, Esq.—little Martha, as all who knew her, and many knew and loved her—called her. She was confined; her babe never knew life. Some unusual symptoms attended her case. Dr. Smith, her physician, said they indicated poison; but yet they might be the convulsions which sometimes attended parturition. Phebe was her nurse and she could not be suspected. Martha died, and

"Blossom and bough is withered in one blight,"

Mr. John B. Tuthill's family being thus broken up, for little Martha was all he had, he went to board with his brother and partner in business, Mr. Charles S. Tuthill, and Phebe was duly transferred to that establishment to cook and work.

On the 1st of April last, Mr. Fuller, clerk in the Tuthill's store, took possession of Mr. John B. Tuthill's house, under an arrangement that Mr. John B. Tuthill was to board with him.—Mr. Fuller had no family but his wife. Phebe was thus thrown out of employment, but still she was retained temporarily between Mr. Tuthill's and Mr. Fuller's. Phebe did many acts of kindness for both Mrs. T. and F., and carried delicacies to and from them.

On the 6th of April last, Mr. Fuller had provided for dinner a can of preserved corn and beans. They were not all eaten at dinner—Phebe was at Mr. Fuller's. After tea, and after Mr. Fuller had gone to his business, she suggested to Mrs. Fuller that the corn and beans might spoil, and they might as well eat the little there was left. Mrs. Fuller consented, and Phebe brought up two small plates of corn and beans, one of which she ate herself, and the other Mrs. Fuller ate. That evening Mrs. Fuller was taken sick, with symptoms indicating poison. She died shortly after. No one could be suspected. Her husband loved her. He had no one else to love. Phebe was kind, obliging, assiduous and affectionate, and remained by Mrs. Fuller to the end. Who could suspect her?

After the death of Mrs. Fuller, Phebe remained temporarily at Mr. Charles S. Tuthill's, where both the brothers were perforce brought into the family. Some ten or twelve days ago both the Tuthills and the wife of Charles S., also a Mrs. Derrick—an Irish woman—with whose husband Phebe had had some difficulty about porterage, was taken sick, with symptoms nearly akin to those of Miss Pelser, little Martha and Mrs. Fuller. They have all been treated on the hypothesis of poison. The brothers Tuthill are out about their business. Mrs. Charles S. Tuthill is doing well, and Mrs. Derrick is still dangerously ill.

Suspicion began to thicken about Phebe.—Last Monday she was taken violently ill with the same symptoms. On Friday morning she died. In her last agonies she said, "She had sprinkled a little arsenic on John B. Tuthill's toast; that she knew there was poison on the window sill near where his soup sat, and it might have blown in; and that she sprinkled a little arsenic on Mrs. Fuller's corn and beans," and further said not. The grave has closed over Phebe and her victims. No more of the facts will probably ever be known. Her motive must be left to conjecture, and imagination must fill up this tale of horrors.

Arrest of Deserting Sailors—An Officer Stabbed.

Yesterday morning, or during the previous night, Dennis Driscoll, Geo. Dean, Alexander Sutherland, and Charles McDonald, deserted the brig Black Hawk, she being on the point of sailing to Liverpool. They had signed shipping papers at Detroit, in which they had contracted to make a voyage on the brig to European ports, and home, the time not to exceed six months.—Capt. Taylor made affidavit of the facts before Esq. Miller, and a warrant was put into the hands of constable McArthur. He arrested one in the forenoon. In the afternoon, when attempting to arrest Sutherland in a River St. house, the latter drew his sheath knife and attempted to stab him in the breast, but was thwarted by the former interposing his right arm, which received the blow. Sutherland escaped, and McArthur and others gave chase.—The fugitive was caught by some packers of Mr. Sholl on the dock, and was lodged in the City Prison, where he is now detained to answer the charge of stabbing with intent to kill.

In the evening, McArthur assisted, we believe, by constable Brown, arrested another. McDonald was not found. The other two were restored to the vessel.

The wound on McArthur's arm happily is not a dangerous one, though deep.—*Cleveland Review.*

A MIDNIGHT ALARM.—Mr. Fuller the secretary of the proprietors of Woodlawn Cemetery, has applied his inventive talent to some purpose in their service. It is a custom at that cemetery, and we believe it nowhere else obtains, to toll a bell whenever a funeral train appears, and for this purpose Mr. F. has arranged an apparatus which, when set in motion by tightening a rope, tolls the bell. This apparatus one night last week worked a mischief which had not been thought of by its author. The damp weather contracted the rope, and about the first hour of the morning the crisis came—the bell began to toll, to the astonishment of everybody and the alarm of some. The watchmen and the people were aroused by this strang tolling of a bell by hands unseen, and it may well be supposed that some thought of witchcraft and spiritualism. They were finally quieted, however, when some adventurous persons discovered upon examination the cause of the alarm. The cord was loosened, and Chelsea has not since been troubled by unaccountable nocturnal bell tollings.—*Boston Post.*

CONVICTION OF A FEMALE INCENDIARY.—A colored woman named Pamaza Cox, has been convicted in New York city of arson in the third degree. The evidence, although circumstantial, was strong, and showed that the defendant possessed an uncommon degree of cunning mental ability. She effected an insurance of $800 on household property not worth $300, hired apartments near her house a few days before the fire, to which she removed a large portion of her goods which were included in the inventory of loss; pretended that she was South when the fire occurred, but was proven to be secreted in the city; endeavored to persuade a relation to come from Philadelphia to swear that he saw her there on the day of the fire, but failing in that induced a colored prostitute, incarcerated in the Tombs, to swear that she saw her in that city at that time.

A MINNESOTA RAILROAD CONTRACTED FOR.—The St. Paul *Advertiser* learns that Edmund Rice has completed negotiations in New York for the construction of fifty miles of the Minnesota and Pacific Railroad, to commence immediately, and be completed before the 1st of December, and for this purpose the contractors have engaged to put 1,500 hands on the road.

Business in Canada—The Crops.

The Toronto *Globe* of the 8th inst. gives the following detailed account of business matters in Canada:

The same features that have characterized the trade of this city, and of the country generally, for the past six months are those that are still most prominent, and we notice no change except that the dulness and depression are more painfully evident, and that the season of improvement, instead of drawing near, as week after week passes, seems more distant than ever. At the risk of being accused of croaking to an old tune of ruin and decay, we cannot, with a due regard to truth, represent the present as anything else than the hardest season the commercial men of the country ever experienced, and to give it as our impression, that in the next six months, if a change occur at all, it will not be for the better. As hard as it may be to make this assertion, and as painful as it is to realize it, yet taking all the circumstances into consideration—the great indebtedness of the country, by five years of overtrading and extravagance,—a poor crop of wheat, for which there is now no market at anything like its comparative value,—a contracted currency to the extent of nearly one-third,—an utter want of capital for the legitimate business of the country,—an internal indebtedness to an immense extent,—a lack of confidence among traders in consequence of the abuse of the credit system,—grievious and vexatious defects in the laws relating to commercial matters,—all these good and sufficient causes, in connection with very unfavorable reports as to the appearance of the growing crop of fall wheat which the frosts of the week past have done much to injure, together with the non-arrival of foreign capital, which it was expected would be sent here for investment, strengthen and confirm the conviction that the dawn of more prosperous days for the country is by no means near. Two sources of relief are certain,—that flowing from the sale of grain now in the country, and the second the product of the next harvest. neither of these, however, regarding them as the highest figure, are sufficient in themselves to effect much change, and both together would fall far short of the required amount to set aright the trade of the country. But both sources are dependant on the probability of low prices and a limited and perhaps inferior yield. It is thought that one-third of last year's crop is still in the country, an estimate which, to say the least, is an extreme one, and that the money realized for it would be of great service. We do not doubt it, but taking into consideration the inferior description, the light weights, the waste attendant upon its laying so long in the granary, and the low rates which the best samples command, we cannot hope for very extended relief from this quarter. With respect to the next harvest, while it is of course vain to predict, yet disguise it as we may, the indications, in this neighborhood especially, point to the conclusion that the yield will not be superior, if equal to that of last year. Should these ideas be correct, the sources of relief are indeed limited, and by any means cannot be commensurate with the requirements of the country.—Nevertheless, the progress of cure, however slow, is sure, and with decreased imports, economical living, and steady production, the time of prosperity, however distant, is certain to arrive.

IMPORTANT TO GENTLEMEN.

MRS. SHANKS, at 525 East Water Street, Milwaukee, Wis., begs leave to inform the Gentlemen of this city, and the public generally, that she is now prepared to take measure for wearing well got up linen, that, in addition to the manufacture of SHIRT COLLARS, DRAWERS, &c., &c., which she carries on now more satisfactory to her customers than any establishment in the North-West, she is prepared to take in WASHING of every description. Having enlarged her premises, and being in possession of a Patent Glossing Powder, Shanks' Vaitare, &c.; also, all modern implements and ingredients requisite in her line of business; she feels confident of giving full satisfaction, and promises to do all work cheaper, than any establishment this side of New York. Linen got up at the above place will, in appearance, be fully equal to new goods.—Tailors and Clothing merchants will do well to give us a call, as they can recommend our work to their customers at large. Country orders promptly attended to. We sell shirts from seven shillings to five dollars apiece. Having proved our experience as Proprietress of the New York Shirt Factory, in Baltimore, for the last nine years, we feel that we will come to make a second commencement in the West, and defy the world for better fitting Shirts, Drawers, Dressing Gowns, or anything in our line.

"Judge" Littlejohn.

The following capital parody we find in the Grand Rapids Eagle. It is a speech supposed to have been uttered by the Hon. Flavious Josephus Littlejohn, at a public dinner on the occasion of his accession to the honor of Judge of the ninth Circuit;

You'd scarce expect one with my face
To sit upon the bench with grace,
And if I chance to fall below
Great Judge Incompto or Judge Cato,
Don't view me with a Northern eye,
But pass my minin decisions by;
Big words from empty noodles flow;
Great Judges from little lawyers grow;
And though I nearly all things know;
'Tis fact, I don't my wisdom show,
But then great learned men like me
Don't see themselves as others see;
And why may not great Allegan
Produce both wise and pompous men;
Exceed what even Virginia's done,
Or any land in kingdom come?
Mayn't Wolverine become as great
As people of any other State?
Or where's the Bench, go far or near,
That in me, may not a rival fear?
Or where's the man full six feet high,
Can boast and brag as much as I?
These thoughts inspire my changeful mind,
To be the greatest of mankind—
Great, not like Clay, Kentucky's son,
But GREAT Josephus LITTLEJOHN.

From the Cincinnati Gazette.

A Rich Letter from an Indiana Congressman.

In which he tells how the "Kansas troubles" is settled and he "reinstated in full" "fathership" in the "Democrat party"—How he has been sick about it, but feels much "better to day"—Turn him "loose in the district" and he'll bring them "up to the polls certain."

WASHINGTON, April 22, 1858.

DEAR FRIEND:—your Kind favor of the 14th inst. is to hand. I was glad to hear from you the indication is the Kansas troubles will be settled to day by the democrat party. Which will be a time of rejoysing the administration has all Rody reconstated me in full felorship—if my friend John L. Robinson will consent I will be permitted to act with the Democrat Party aging the Settlement will be on the Great Principles of nonintervention so you will see wo poor devils have held our ground well. See from your letter I will have plenty of competitors in the convention well it is a free country they have a rite to be candidates And the people have a rite to select the one that will suit them best and if they want a man that will labor for the interest of the masses they will chuse myself so I leave them perfectally free to chuse for them self.

any favor you can render me will be taken Kindly, and I feel certin I can carry the District. —turn me loose in the district I will bring them up in the polls certin. I will help the hold ticet some hundreds in the district.

I will be home by the 10 of June and will have a chance to see my friends before the convention comes off, and will write my friends on the subject from the custom and circumstances I think I ought to have a chance at the next race—you will do me a kindness by seeing as many of the friends as convenant and Enlist them in my favor I have been quite unwell the last week I feel much better to-day—I hope this will find you and family well

your friend JAS. B. FOLEY.

THE BIBLE IN THE NEGRO CABIN.—Henry Ward Beecher, in his "Life Thoughts," says: "The Bible Society is sending its Bibles all over the world—to Greenland and the Moravs, to Arabia and to Egypt; but it dares not send them to our own people. The colporteur who should leave a bible in a slave's cabin, *would go to Heaven from the lowest limb of the first tree.*"

☞ One of the jokers says: "Women require more sleep than men, and farmers less than those engaged in almost any other occupation. Editors, reporters, printers and telegraphic operators, need no sleep at all. Lawyers can sleep as much as they choose and thus keep out of mischief. Clergymen can sleep twenty-four hours and put their parish to sleep once a week."

MEDICAL.

ONE DOLLAR
WILL BUY
ONE OF THE BEST ALTERATIVE and Liver Medicines now before the public, namely DR. SANFORDS INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, cleans, purifies and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the malter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORDS INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums.

Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to collect as much family medicine tried and known in its effects. It has rarely or ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a derang'd Liver is cured when the Liver is excited to action.

JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one consult with Jaundice, and the Invigorator regularly one week, and their skin will begin to assume its original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.

For an overcoated stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a *family medicine* know it, will like use it speak in the highest terms.

DR. SANFORD'S INVIGORATOR came to us recommended to us as sure for Liver Complaint, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Rock.*

We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as Dr. Sanford's Invigorator; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and proves to remove the system so thoroughly, that we think we rendered a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where previous benefit has been received in cases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Fayetteville, (Ark.) Republican.*

AYER'S
CHERRY PECTORAL!
FOR THE RAPID CURE OF
Coughs, Colds and Hoarseness.

BAINBRIDGE, MASS., Dec. 20th, 1855.
DR. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown its superior virtues for the treatment of these complaints. HEEN KNIGHT, M. D.

A. B. MORTIMER, Esq., of Utica, N. Y., writes: "I have used your *Cherry Pectoral* myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put up. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BRUNSWICK, MISS., Feb. 7, 1856.
BROTHER AYER:—I cheerfully certify your *Pectoral* is the best remedy we have for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes 3d Jan., 1856: "I had a tedious influenza, which confined me to doors six weeks. took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bo tle made me completely well. Your medicine is as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis;

SIR:—Your *Cherry Pectoral* is my specific for Asthma, Phthisic, and Bronchitis; and I do not hesitate to say it is the best remedy for Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility. The remedy was discovered by me, when my only child, a daughter, was given up to die. Wishing to do as much good as possible, we will send to each of his afflicted fellow-beings its request it, this recipe, with full and explicit directions for making it up, and successfully using it.—He requires each applicant to inclose him one shilling—three cents to defray the expense of the recipe, and the remainder to be applied to the payment of this advertisement.

VOLUME XV. MILWAUKEE DAILY SENTINEL, TUESDAY MORNING, MAY 18, 1858. NEW SERIES.

THE DAILY SENTINEL.

Illinois News Matters.

The Springfield correspondent of the St. Louis *Republican* writes: "This is usually considered the most pleasant month of the year; and yet, during its continuance, we have had scarcely enough sun to remind us of that luminary. But enough sun to remind us of that luminary. But enough sun to remind us of that luminary. But
